

Panopto Settings for Ross 136 Classroom

Best Camera: Webcam

Best Microphone/Audio: Microphone (USB Audio Device)

Document Camera: Set Secondary Source to Wolfvision

Laptop Capture: Laptop cannot be captured by podium computer. Laptop cannot use webcam or document camera.

A screenshot of the Panopto web application's settings page. The interface is dark-themed. At the top, there are buttons for "Create New Recording", "Manage Recordings", and "Settings". The "Settings" page is titled "Session Settings" and shows a "Record" button. Below this, there are fields for "Folder" (Offline Recording) and "Name" (Monday, August 10, 2020 at 12:58:16 PM). The main area is divided into "Primary Sources" and "Secondary Sources". Under "Primary Sources", there are dropdown menus for "Video" (Webcam), "Audio" (Microphone (USB Audio Device)), and "Quality" (High). There is a checkbox for "Capture Computer Audio" which is checked. Under "Secondary Sources", there are checkboxes for "Capture PowerPoint", "Capture Main Screen", and "Capture Second Screen", all of which are checked. Below these are "Integrated Webcam" and "WolfVision Video Capture II" options. A red box highlights the "Video" dropdown, the "Audio" dropdown, the "Quality" dropdown, and the "Capture Computer Audio" checkbox. Another red box highlights the "Capture PowerPoint", "Capture Main Screen", and "Capture Second Screen" checkboxes. A red arrow points from the "Secondary Source" label to the "WolfVision Video Capture II" option. At the bottom of the screen, there is a "Resolution" dropdown set to "1920 x 1080", a "fps" slider set to "8", and a "kbps" slider set to "600". A red arrow points to the "fps" slider with the text "Increase to 24". The background of the settings page shows a preview of a document with text, including sections 9.3, 9.3.1, 9.3.1.1, 9.3.1.2, 9.3.1.3, 9.4, 9.4.1, and 9.4.2. A red box highlights the "Secondary Source" label at the top of the preview area.

Zoom Settings for Ross 136 Classroom

Test Speaker and Microphone every time!

Best Camera: Webcam

Best Microphone: Microphone (USB Audio Device)

Document Camera: Set Podium/Projector to Doc Cam, in Zoom Share Screen, choose Advanced and select WolfVision

Laptop Capture: Laptop cannot be captured by podium computer. Laptop cannot use webcam or document camera.

The screenshot shows the Zoom audio settings interface. At the top, there are two dropdown menus: "Speaker" set to "Test Speaker" and "Speakers (USB Audio Device)". Below these is an "Output Level" slider. A "Volume" slider is also present. Underneath, there are two more dropdown menus: "Microphone" set to "Test Mic" and "Microphone (USB Audio Device)". A "Select a Microphone" dropdown menu is open, showing options: "Microphone (USB Audio Device)" (checked), "Microphone (Realtek Audio)", "Microphone (Mic Webcam)", and "Same as System". Below this, a "Select a Speaker" dropdown menu is open, showing options: "Speakers / Headphones (Realtek Audio)", "Speakers (USB Audio Device)" (checked), and "Same as System". At the bottom, there are buttons for "Mute", "Stop Video", and "Security".

The screenshot shows the Zoom camera settings interface. It features a "Camera:" dropdown menu set to "Webcam". Below it, there are two radio buttons: "16:9 (Widescreen)" (selected) and "Original Ratio".

The screenshot shows the "Select a Camera (Alt+N to switch)" menu. The options are: "Webcam" (checked), "WolfVision Video Capture II", "Integrated Webcam", "Choose Virtual Background...", "Choose Video Filter...", and "Video Settings...". At the bottom, there are buttons for "Stop Video", "Security", and "Partic".
